Dear Parents/Carers,

RE: Maths Intervention Programme

We are pleased to inform you that, as part of our ongoing commitment to pupil achievement and success in Maths, we are inviting your child to participate in a weekly Maths Intervention Programme.

It is critical that your child takes advantage of every opportunity to review or catch up on previous learning. The planned interventions will give your child additional assistance required prior to their upcoming Functional Skills Maths Level 1 & Level 2 examinations, in order to achieve the highest possible grades.

We believe that pupils should attend all sessions in order to benefit themselves. Pupils will be given an individual schedule for attending sessions run by our Maths specialist.

We will use an intervention tracker to record attendance, and a reward system will be implemented.

We would appreciate your assistance in ensuring your child attends these sessions. If your child is unable to attend, please let us know so that we can make alternative arrangements.

Kind regards,

Ryan Walker
Head of Maths and Numeracy
